

Business Valuation

There are many reasons for valuing a business, whether you are buying or selling a business, selling or transferring shares, considering a market listing, breach of contract or a cessation in trading, shareholder disputes, intangible assets valuation, brand valuation or death or divorce.

We can help you with:

- **Preparing** a standard or customized valuation report suitable for your needs
- **Determining** a possible range of results based on different scenarios
- **Acting** in the capacity of an independent expert

Strategic Recommendation

Whether you already have an established business or are still unsure on how to execute your business ideas, we can work with you to further develop your business and risk management strategies. We help you to formulate focused business plans together with functional financial models by assessing the future viability and direction of your business and maximizing your opportunities for raising finance.

We can help you with:

- **Identifying and evaluating** possible options necessary for a market entry
- **Developing** a practical execution plan with immediate actions
- **Performing** simulations to assess possible scenarios

Market Assessment

After selecting the targeted market to enter, it is vital to perform comprehensive assessment on the market. We help you to perform analysis based on market trends, consumer behaviors and government regulations.

We can help you with:

- **Performing** detailed market analysis based on publicly available information
- **Determining** the useful information for your business initiatives
- **Recommending** suitable actions based on our analysis
